

AT&T invites you to attend

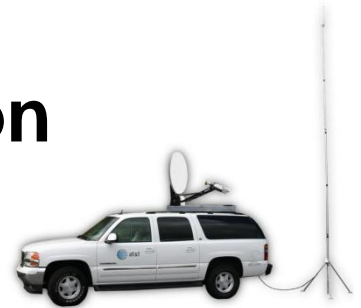

The AT&T

Mobility Application

Forum

IEEE GLOBECOM 2011

George R. Brown Convention Center

AT&T recognizes that many of our customers are faced with today's economic challenges and budget deficits that directly impact on the ability to serve and perform as an organization. In light of these events, **AT&T has made network investment like 4G LTE** and is focused on delivering applications that transform our customers operations in areas such as improving safety, driving operational efficiency, increasing worker productivity, preparing for disaster recovery, and strengthening public relations. Please invest some time with us learning about these mobility solutions.

| Mobility Workshops: | DATE/TIME | ROOM |
|--|-----------------------|-----------|
| Emergency Response: AT&T Disaster Recovery | Dec. 7, 1:30 – 3:30pm | 320 C & F |
