CALL FOR PODIUM PRESENTATIONS

IEEE GLOBECOM is one of the two flagship annual conferences of the IEEE Communications Society, the leading global professional society of communications industry professionals and academics with over 210 chapters worldwide. IEEE GLOBECOM 2019, like its predecessors, will showcase the latest in communications research and development, through its technical symposia, industry program, tutorials and workshops. Prominent keynote speakers will anchor each day's program, and industry exhibits will be mounted in high-traffic locations. There will be high-level executives and leaders addressing hot topics, such as new horizons in the industry, trends in government regulations and status in international standardization, as well as researchers explaining their latest discoveries.

The conference provides an attractive Industry Program, which features Keynote Talks, Executive Forum, Panels, Seminars, Demos and Exhibits, and Podium Presentations.

Podium Presentations, to be held during the conference program, at a conference coffee break, aim at giving an organization the possibility to present a technology, application, service, and/or product of interest to conference participants.

Interested Podium Presentations organizers should submit their proposals, including the proposer information (name, affiliation, and email), the title of the presentation, and the description to the Industry Expo Chair by the deadline of June 28, 2019

The proposals will be evaluated based on the following criteria: Relevance, Timeliness, Relationship to Patrons, Relationship to Exhibitors.

The following apply to Podium Presentation Speakers:
- If attendance is only for the day of the presentation, they get a free One Day Registration each.
- If attendance is for more than the day of the presentation, each will have to pay for a regular registration.

Industry Expo Chair: Frank Chang (fymchang@gmail.com).
